

## BIANCA 36

Bianca Yachts began building built boats of wood in 1964 in Rudkoebing, Denmark. The first Fibreglass boat, the Bianca 27, was also first built there.

Since then, the Bianca family produced a number of models including the Bianca Queen Motor sailor, followed by a long line of sailboats.

Over the years, the Bianca Boatyard experienced a number of changes in ownership. When the last owners closed in 1994, the son of the Bianca founder succeeded in purchasing the Bianca name and rights.

The first Bianca 36 was built in 1976.

The first owner used the boat until 2020 when it was bought by the current owners. They are a large family and are looking to buy a bigger boat.

The boat is in good condition for her age. Mooring has been paid up until October 2022 in Netsel Marina, Marmaris.
